CHICAGO Feb 3 —The *Tribune* summarizes a Cincinnati special thus Further examination into the entangled finances of Archbishop and Bishop Purcell at Cincinnati reveals a most unfortunate and deplorable prospect for creditors mainly persons whose hard earned savings from meager wages were deposited with the two prelates Claims to the amount of over $1 000 000 have already been presented, and the liabilities of the archbishop will aggregate not less than $1,250 000 The property in the hands of the trustees to meet those demands has a market value of not more than $800 000 and other means will have to be forthcoming with which to liquidate all claims While there is no hint of any reflection upon the integrity of the venerable Catholic dignitary there is manifested among creditors considerable impatience at the delay to which they are subjected, and threats of suits are beginning to be heard.

LONDON, Feb 3 —The origin of the plague is thus given A Cossack returning from the war brought his lady love a shawl, which she wore two days and sickened with all the symptoms of the plague and died During the following four days other members of her family died. The disease spread rapidly, the local authorities not paying any attention to it till half of the inhabitants died and the remainder were unable to bury the victims. Then, when the epidemic had assumed serious dimensions, energetic means were taken for preventing its spreading and strict quarantines were established Firstly in the towns and villages, shutting off streets where the plague reigns from the rest of the place, and secondly, by surrounding the villages with troops, so that nobody is allowed to pass in or out The panic in Russia is almost incredible Every class and station in life have petitioned for an entire cessation of all intercourse, even postal communication between the rest of Russia and the Volga

Letters sent from Astrachan and Zaritzin are not received by the persons to whom they are addressed Some people even refuse to take paper money, fearing that germs of the infection may be communicated through it It is almost impossible to describe the terror which has taken possession of the people.

The Russian sanitary commission has proposed to shut off the Volga line from all intercourse with western Russia and permit communication only under quarantine Russian railway cars are not admitted to German territory.

"A WORD OF WARNING" ANSWERED

WARM SPRINGS AGENCY, Jan 30, 1879

TO THE EDITOR OF THE OREGONIAN

About a month ago I noticed an article in THE OREGONIAN headed "A Word of Warning" dated Eugene City, Dec 21, 1878 and signed E P H

I have so far treated the article with contempt but having noticed that nearly all the Oregon papers have copied it, and also having received quite a number of letters from friends in regard to it, forbearance seems no longer to be a virtue, and it appears to be necessary for me to make some reply in order to ease the minds of those who fear the dreadful consequence of the above article

What prompted the writer to pen the article is a mystery to me I do not believe he intended to tell a falsehood, for I have too much confidence in the honesty and integrity of the man but I will say this that no person has any right to tell a thing without first investigating it thoroughly and be fully asserting such reports for this be fully satisfied as to their truth. If this had have been done in the above case the article would never have appeared and many an honest mind been at rest

The writer says he received his information from a Digger Indian named Jim Spores and the latter from his friend Charley, a Warm Springs Indian The facts are these Charley was permitted to go to the Willamette valley to pick hops and, unfortunately, came across this Digger Jim, who I understand furnished Charley with all the whisky he wanted and no doubt, in their drunkenness, they had some such conversation, though Charley now says he never told Jim any such thing The Indians here know very little of what is going on outside of this reservation only as they learn from myself or employes They think it bad to be lied on as they have been Last summer persons asserted in the newspapers that these Indians had murdered all the inhabitants of the Oak Grove settlement except one half-breed and a child he carried off on his back, said this witnessed the burning of the houses and the destruction of property and a thousand lies of a similar character were told These Indians say they have always fought for the white man and never against him nor is there money enough in the world to buy them to fight against the whites nor would they even retaliate were they ill treated, that they are still ready to fight the white man's enemies, that 74 of their people risked their lives in the Snake war, and four of that number now lie sleeping on the battlefield! Stock ethy lost his life fighting over the dead body of the lamented Lieutenant Watson and the wounded Dick Barker Last, again the same number (74) bared their breasts to the bullets of the Modocs besides so doing in many other hard fought battles No wonder they think it cruel to be so slandered as they have been and now are They say if there was any combination or conspiracy combination of Indians for the purpose of making war they have never heard of it All the information they got of such rumors they got from the white men and here let me say if the gentleman who signs himself 'E P H' would visit this agency, where these *good Injuns of Capt Scott's* live I think he would come to the conclusion that it was not absolutely necessary for him to keep his powder dry, but instead there should be some of these Indians sent out to civilize and Christianize his own race This Charley friend of Spores has usually worked for white people coming in contact with the degraded of our own race, learning all their vices and none of their virtues, and, like many of his white associates, has become a *terrible liar* The Indians here do not believe anything he says and myself and employes know him to be *very unreliable* In the future you will hear no more of his lies, for I shall not allow him to leave this reservation I am well aware that what I say will have very little influence on the minds of those who would like to see the whole human race brought down to the level of the savage, but thank God this is not the prevailing opinion of our enlightened people and to this class I look for sympathy and make a strong appeal in behalf of this once benighted people If we should look at the murders, suicides robberies and the abominations of our own civilized race we should form a very low opinion of our civilization Nearly every paper we take in our hands gives the account of some horrible crimes many that would even disgrace a Modoc Indian and perpetrated by an Indian would be reasons for exterminating the whole tribe or race

In conclusion I would say there has never been ground either directly or indirectly for such a report as 'E P H' gives publicity to On the contrary, we can depend upon these people as our true friends as they have always been Let those who still have doubts come and see them and hear them talk, and they will be convinced of the truth of what I have said The statement that one of the Perkins murderers was a Warm Spring Indian is not true. The fact is he is a John Day's Indian but raised on the north side of the Columbia river and never has been on this agency to my knowledge Every renegade Indian in the country seeks to use the title of a Warm Spring Indian, well knowing the good name these Indians have, and hopes to secure more favor on that account As to E P H's reliable 'Jim Spores' I have employes here who have known him for years and know him to be a drunken worthless vagabond and *abominable liar* Yesterday my Indians made this proposition viz They are willing to pledge all their personal property and even their reservation that not one Warm Spring Indian will take up arms or engage in any hostilities against the white the coming spring or any other time in the future for that matter It can be proved that not *one* was in the war last summer Their loyalty to our people has been proved beyond a doubt

A CALL FROM KITTITASS

THE [illegible] GENTLEMAN [illegible] THE TRUTH AND AWAIT THE VERDICT OF THE PUBLIC

KITTITASS VALLEY W T Jan [illegible]

TO THE EDITOR OF THE OREGONIAN

You will confer a great favor upon the business interests of this northwest corner and upon your friend who ask for no more than justice if you will publish the following truths concerning this Kittitass people and their valley which now holds two thirds of the entire population of Yakima county and four fifths of all the business men and farmers—a population that is peaceably and honorably inclined and at no time disposed to make themselves conspicuous by writing sensational bosh for country newspapers either on Indian scares or any other senseless, but guilty conscience phantoms

It is a truth that the Snake Indian murderers of Perkins and his wife have been informed on by Moses Indians and arrested by Wilbur's Simcoe agency soldiers, and there were no warlike difficulties in the way whatever A few white men accompanied the Indian soldiers and reaped all the glory, vainly imagining that they had achieved imperishable fame by sending forth exaggerated rumors of Indian war

It is a truth that they arrested the old childlike peace Chief Moses put him in irons lodged him in Yakima City jail and then released him, not knowing why they had done so or what he had done to cause such false imprisonment

It is truth that Chief Moses is on the Simcoe reservation and afraid of Yakima City and its wild rulers And it is truth that Father Wilbur, of the Simcoe reservation highly respects Moses, and that Moses knows it And it is also a truth that only those tyees thoroughly understand each other's sentiments, and dare not divulge lest the "Indian ring" at Washington city discard them both

It is a truth that the frontier towns in any territory can only get notoriety by sensational misrepresentation but it is also a truth that they would better have a local reputation for business, for progress and for domestic peace, than have newspaper notoriety

It is a truth that the people of Kittitass have no part or parcel in, and no affinity for, any people who deny the rights of the many, in order that a few may fatten on the spoils of the oppressed tribe kindred or tongue

And it is a truth that the Kittitass is the most beautiful most extensive, and most fertile valley of the Pacific coast country and destined to be the military headquarters of the department of the Columbia, and the capital city seat of the future state of Washington—which will at an early time the wealthiest and worthiest state in the coming American union

It is also a truth that it is now the best known and most honored valley in Washington city, and at the president's cabinet and congress of the United States—and no boast made of it, either SHY LOW

REMINISCENCES OF CALEB CUSHING

It was General Cushing's lot to live long and to hold many great posts Probably no other man that ever held office in this country with the exception of John Quincy Adams ever brought so much real knowledge to the transaction of business, while his versatility and readiness were equal to his attainments On this point the following tribute of Gov Andrew, while he and Gen Cushing were members of the Massachusetts house though humorously given is so "founded on fact" as to have positive biographical value Mr Cushing had opposed the consolidation of two courts on the ground that the combined duties could not be properly performed by one person Mr Andrew said

"He (Mr Cushing) is a living witness in his own person of the utmost infinite possibility that lies in the human mind Here is a gentleman making that argument to us who has repeatedly been a legislator of Massachusetts repeatedly a legislator of the United States as a member of congress—a judge of the supreme judicial court of Massachusetts a general of brigade in the service of his country leading her armies into a foreign country in actual war—an ambassador of the United States to a nation of people not of our color nor speaking our language, nor using our alphabet—and after this we have seen him four years the attorney general of the union—ex officio a member of the cabinet of the president Why Mr Speaker suppose this duty upon the gentleman from Newburyport, and he will do the whole work of both courts in the forenoon write an article for the *North American Review* in the afternoon and lecture before a lyceum in the evening"

At a dinner in Washington it was said Mr Cushing addressed the French minister in elegant French the Spanish minister in Castilian the representative of Denmark in Danish of Holland in Dutch, of Victor Emanuel in Italian and it was believed that he could have talked Chinese with the representative of the brother of the Sun and Moon had one been present Unlike many men of abundant accomplishments however, Mr Cushing was deep and thorough in his knowledge even in the most abstruse departments None knew this better than those who had to contend with him at the bar where shallowness is peculiarly at a discount

An amusing reminiscence bearing on this point is credited to Mr. Gerrish, of Newburyport, once a law partner of General Cushing and an intimate friend of Rufus Choate These two Titans of the bar were to appear as opposing counsel in an important suit, and the court house was crowded to witness the encounter As Mr Gerrish is said to have told the story

To the amazement of judge jury and spectators, both Cushing and Choate were anxious for a "continuance"—in other words for a postponement of trial As a usual thing both gentlemen were always anxious to force a case to trial, being in a state of chronic preparation, as Webster once said of Choate In going out of court I met Choate and said "How is it that you were ready for a continuance to day It is a little odd of you

Choate replied Oh I am a little pressed with business and can afford to let this case stand over"

Said I "Choate, this is sheer nonsense I'll tell you what the matter is You are afraid of Cushing"

"So I am," was the reply "and I am not ashamed to own it, either

"Well well," said I, "this is pretty good The idea of Rufus Choate being frightened! What on earth do you fear in Cushing

"Mr Gerrish, I will tell you I am afraid of his overwhelming knowledge of the law"

In the afternoon Cushing came into the office I went for him at once Caleb what was the matter, to day? Why don't you insist on trying that case?

"Oh!" he replied, "the weather is warm and we have much to attend to and I didn't care to hurry matters

"Now Cushing be honest were you not a little afraid of Choate?

Well Gerrish, to be candid about it, I was Are you satisfied now?

I then inquired what he feared Choate for Do you think," said I "that he knows any more law than you do

"No sir I don't" was the answer "but I'm afraid of the man's influence with a jury, right or wrong"

Notwithstanding Mr Cushing's prominent career at [illegible] public service he was [illegible] popular Neither the Whigs nor the Democrats [illegible] really his [illegible] was [illegible] far from being a favorite [illegible] Democrats [illegible] of the [illegible] no [illegible] was [illegible] that [illegible] to his [illegible] the [illegible] born [illegible] man and never to be trusted At [illegible] Cushing was not [illegible] terrible importance as that which public men crave and he would not win it His story reminds one of that of the earl of Shelburne—the marquis of Lansdowne—whose talents and knowledge commanded respect but never could inspire confidence.

AN ADDRESS TO THE PEOPLE OF OREGON.

[illegible]

[illegible] for [illegible] should [illegible] administration For [illegible] that object alone, how well I [illegible] I will leave to that honorable gentleman and the commonwealth of Oregon to [illegible] At the session of the legislature since [illegible] committees have been appointed to investigate my books accounts and conduct Their findings are before the people to day Not one [illegible] act has ever been shown by any of the committees [illegible] the electoral troubles of 1876, the Morton investigation the swamp land muddle the [illegible] or the [illegible] one dollar of the money belonging to the state [illegible] the salary allowed by law [illegible] $1 500 a year No other state officer has been investigated as often as I have [illegible] committees have been selected from both [illegible] In 1876 the house of representatives was democratic [illegible] committee on the committees who refused to go into the caucus and abide by the regular organization of the party They commenced their investigation believing that I was guilty of some wrong They made the investigation and reported to the legislature that everything was found honest and correct The house refused to adopt the report, saying that it was a "white wash" To the credit of the committee, be it said, [illegible] In 1878 [illegible] report, [illegible] to hold further comment [illegible] the whole report so far as the [illegible] legal evidence, [illegible] services of C B [illegible] of Salem, [illegible] J H Moore who has represented the republicans of Marion county [illegible]

[illegible] the affidavits and statements of every [illegible] report [illegible] members of Salem [illegible] the committee [illegible] the people [illegible] Watkinds' term [illegible] Judge Bonham's statement, [illegible] Miller the warden, state [illegible] Mr Burch's [illegible] Bush's receipt for [illegible] D P Thompson, [illegible]

[illegible]

In regard to D M Watkinds is refusing to go before the committee [illegible] ment

The committee's statement in regard to amount of wood bought and the price paid for the same the false charge that [illegible] shared in the profits or wilfully lavished the funds of the state upon my relatives in the wood contracts The man who wrote this part of the report if acting under his oath is a perjured villain (see the testimony of Bess and Hixson) that I was not directly or indirectly interested in any way whatever they also swear that they lost money on the contract The wood furnished by W H Watkinds & Co, was furnished by other persons the same price was charged the state that the firm paid in every case (see R. H Dearborn's testimony) There was a few cords of dry oak wood bought at $4 per cord by the firm in town, and hauled to the prison and the state was charged the same price All of the wood contracts were let to the lowest bidders Different parties bid on the contracts among them was J H Moore's of Salem, whose bid was $3 50, some bids were as high as $4 65 per cord Bess & Hixon were the lowest bidders and received the contract

It must be remembered that these parties received their pay in warrants that were selling from 80c to 90c on the dollar, some of the warrants have not been paid up to the present time All this wood was received, measured and receipted for by the deputy warden (see his testimony) The committee further says, "evidently care was taken to avoid competition for contracts" D P Thompson informs me that one John Thompson, of Lane county, wrote this part of the report To show his utter disregard for the truth the vouchers he was looking at had attached to them the advertisements that appeared in the weekly *Mercury* of April 3d, 9th 16th and 23d, 1874, edited by Thompson's own brother In the same paper, January 10, 1872, and in the Oregon *Statesman* for the same years, for sand, wood flour, beef and other supplies The papers are on file in each of the offices to day, showing the bids Contracts are on file with the parties in accordance with their bids. It would hardly seem possible that a creature so devoid of truth and honor as this creature Thompson, should have received the nomination for district judge for the district in which he resides. The people in that district knew him better than I and defeated him at the polls and elected an honest man in his stead The district was Democratic as it elected a Democratic prosecuting attorney at the time he was defeated The report further says "$21,561 14 was paid for groceries to M. Meyer & Son of Salem this is equally false, as the balance of their statements, the proof of which see C B Moore's statement; $17,371 12 was paid to M Meyer & Son of Salem, during the whole time I was superintendent, of this amount about one half was really for groceries, the balance was for dry goods, clothing hats, boots, shoes, leather, nails, shovels, axes rope and other necessary supplies around the prison, and the vouchers the committee had before them showed these facts All of the leading articles were furnished in accordance with their sealed bids, there was always competition for bids for the supplies bids were received from Breyman Bros, Hirsch Bros, Paul Oberheim S Friedman and others, their bids all on file in the office The item of brooms, 16 dozen, were used in six and a half years, at a cost of $14 50, one half dozen of this number cost $3 per dozen, one half dozen, $2 50 per dozen, the balance were bought at $7 and $8 per dozen The committee make great complaint about the purchase of eggs, being, as they say, bought often as rice and sugar, and in great quantities By referring to Moore's statement it will be seen that $83 92 was squandered for eggs in six years and six months The committee report 20 officers and guards. From the amount paid for eggs it would show three eggs a day to be divided among 15 or 20 men, or would be about one egg a month to the man (for breakfast Sunday morning) Starch, that appears on the bills was bought for puddings for the officers' table The committee finds that I used in the six years and a half 2 032 pounds of butter. I turned over to my successor B F Burch, 450 pounds, which leaves 1,582 pounds used during the whole of my term of office, (a great deal of this butter was purchased of J W Nesmith, and if there was anything wrong about this transaction let that gentleman speak,) which is certainly a very small amount for the number of officers and guards at the prison

The committee further report that I spent $3,101 31 for drugs and medicines This statement is equally false as the rest of their report I only spent during the whole term $2 029 13 (see Moore's statement). The Crane & Brigham bill is included in the amount In the charge for drugs and medicines there was paints, oil, glass, putty brushes, varnish etc Paints, oils and glass were used in erecting the new workshops and repainting the prison, quite a quantity of coal oil also appears in the drug bills, and I turned over to my successor B F Burch, $286 67 worth of drugs and medicines as appraised by R. A. Pratt, druggist of Salem This shows that I spent $1 742 46 for drugs, medicines, paints glass, etc, instead of $3,101 31 as reported, being about $268 07 per year for drugs during my term of office, instead of $477 10 as reported (a vast difference) The committee could not help but know that their statement was false as the same vouchers Mr Moore examined, the committee had before them The items of raisins, candy and nuts were used at the officers' table Thanksgiving, and Christmas, the raisins were frequently used in making mince pies (see commissary's affidavit)

J A. Osborne testified before the committee that Collins received convict labor on the brick yard, that he did not pay for This statement is false (see testimony of Robt Thompson warden of the prison and Mr Collins) Osborne was in the commissary and had nothing to do with the prisoners that were to work on the brickyard, they were turned over to Mr Collins every morning by the warden and charged to him

The committee was in session in Portland four days within two blocks of my place of business I was not asked to come before them some member of the committee was in my store every day while they were here not one word was said about the books being lost or anything being unsatisfactory to the committee Two members of the committee informed me that my accounts were all right and that I had the only intelligible set of books in the state department. On the day before the committee was to adjourn I received a subpena from Mr Galloway to appear before that body at 10 o'clock A M on the day they thought they would adjourn I had not been before the committee but a few moments, I was giving my evidence as it appears in the report, this fellow J M Thompson rushed upon me with a pistol in his hand already cocked, and no doubt would have succeeded in carrying out the plot that had been planned by him and his friends, namely, to shoot and murder me while I was before the committee at that time two members of the committee Galloway and White, knew that this trouble would occur before my arrival at Salem as they both testified before the examination that they had both talked and advised with Thompson the day before concerning a letter the letter had been read them The letter was said to contain some slanderous abuse against members of my family, whose husband and father was sought to be assassinated To show what prompted this fellow Thompson to make this investigation without authority of law on his part it must be remembered that he was not a member of the committee and whatever he did in this investigation was voluntary so far as he was concerned He had no more right to make up the report for the committee than any other private citizen His hatred of Gov Grover and myself and our administration of public affairs is entirely of a personal and revengeful character That the people may more fully understand this, I submit the following In 1870 Gov Grover and Gov Whiteaker were candidates before the Democratic convention for the nomination of the office of governor This fellow Thompson was elected as a delegate from Lane county and was expected to use all honorable means to secure the nomination of Gov Whiteaker of his county for governor Instead of doing so he came to Salem after he was elected delegate two days before the convention met at Albany securing the promise of the appointment of private secretary to Hon L F Grover if he was elected governor and when Lane county had the appointment of private secretary to Gov Grover if he was elected There was then little effort made to secure the nomination of Gov Whiteaker by Thompson After the election Thompson tried to get the place but it was given to Mr Gilfry Then again after the death of Judge Thayer he was an applicant to fill the vacancy of judge for that district when he failed to get that From that day to the present he has been an enemy to Gov Grover and his administration His hatred to me is for the reason that I defeated his brother for state printer in 18[illegible] and that I tried to defeat his nomination for district judge in 18[illegible] I wrote him a letter a few days before I was subpoenaed to go before the committee telling him that I would address him an open letter through the public press and let the people know why he was taking such an interest in this investigation with no authority of law on his part. It was this that [illegible] his treachery to one who they sought to promote.

The Daily Oregonian.

TUESDAY MORNING, FEB 4 1879

NINETEENTH YEAR

With the present issue THE DAILY OREGONIAN begins its nineteenth year. The work of this journal is a daily herald of its position as the unrivaled newspaper of the northwest. During the past year, both daily and weekly editions have had larger circulation and greater prosperity than ever before. The career of THE OREGONIAN widens with increasing rapidity the distance between itself and all attempts at competition. It is within the knowledge of every observer that this is the only journal of general circulation in the whole northwest. It is read far more than all others combined. Its increasing success is proof that a thoroughly independent journal is wanted and appreciated. It is the policy of the proprietors of THE OREGONIAN to use its growing resources for improvement of the paper every year and during this year they will add new machinery and other facilities and increase its already large expenditure for obtainment and publication of news. Fast as our present machinery is, the editions both daily and weekly, have grown to a point which taxes to the utmost our means of producing the paper, and we shall therefore during the year put in a press of double the capacity of the fastest one we now use, with folding machines and apparatus complete. Having won its position THE OREGONIAN will maintain it, sparing no effort nor expense to give its great circle of readers full satisfaction in return for the confidence and support so generously bestowed.

MR. WATKINDS' "EFFORT."

The report of the committee of investigation is still "working." In fact as time goes on there is more and more fermentation. While it must be admitted that Mr. Watkinds has put some characteristic vigor into his side of the "debate," the general effect of his effort will nevertheless go to confirm the public judgment that the inside political and general management of the Grover administration was not a model for future times. In what Mr. Watkinds has spread before the public we catch glimpses of the peculiar methods of that administration and of the "influences" which were at work in it and with it. Clearly it was organized to take care of its friends, and even Mr Watkinds complains of some of these burdens which were thrust upon him to his annoyance.

In his address, now printed, he attacks the members of the committee in his usual bitter and vehement style, trying to make out that they are not men of honor and integrity, and rehashing a great deal of loose talk about them which has little point and is nothing at all to any present purpose. How much money, for example, was paid to Hon. D P Thompson for surveys in Idaho is a matter of no moment, since it may be taken for a certainty that all the payments made to him were for surveys properly made and accepted by the general land office. Again, it is of little consequence whether Hon John M. Thompson applied for the position of private secretary to Gov Grover or not,—further than that we may suppose from his well known record that had he received the position he would have been content with the lawful salary and made fewer "draws" than Mr Gilfry. And though Messrs. Ross and White are men whose record for partisan consistency may not come up the standard required by those who think it a sin to "bolt the ticket," or any part thereof, nevertheless it may be found that this is not the worst of all offences. In justice to all concerned we cannot omit the remark that the allegations made by Mr Watkinds against the members of the committee are not helped by his warm commendation of Mr. Grover as a faultless official.

Though Mr Watkinds would have it appear that the penitentiary while under his charge was conducted on true principles of business economy, yet we can hardly suppose, from the surroundings he so forcibly depicts, and the influences of a personal and political nature with which he was continually embarrassed, that he was really able to serve the state just as well as could have been desired. The heavily taxed people have paid large sums of money for maintaining the state's prison, and it would be proof of remarkable simplicity and credulity to imagine that they had got the best possible results for their money. That there is abundant ground for criticising the prison management cannot be doubted. It is enough to say that it was part of the Grover-Chadwick system of politics, and we cannot question that Mr Watkinds himself would readily agree to undertake its management at far less cost than heretofore, could he be assured that he would not be troubled by the interference of his fellow politicians, who always insisted on having it conducted so as to assist themselves and "help the party."

It would be difficult to conceive of anything more unseemly, and at the same time more unprofitable, than personal controversies over the report of the committee of investigation. As for Mr Watkinds, whose statement we present to-day, he would certainly have made a better case had he contented himself with meeting the committee's report and refrained from the bitter personalities with which his rejoinder abounds. One charge is never answered by preferring another. His statement appears to be directed mainly against D. P. Thompson, a man whose integrity is wholly above reproach, and in whose connection with public affairs there has never been the single transaction which would not bear minutest examination. We speak thus positively from very long and most intimate personal knowledge of the man. Mr Watkinds makes mistakes in these attacks. He answers nothing thereby, but weakens the case he would try to make out. We make no charges against him personally, and have always been disposed to think that he intended to do his duty honestly in his position of superintendent of the penitentiary; but at the same time no one can forget that the institution over which he presided represented a part of the Grover political system. Even if we were otherwise in danger of forgetting it his own present statement, with accompanying letters, would keep it fresh for a while longer.

THE METRIC SYSTEM

Some effort, we believe, is making to teach the system, or at least a portion of its nomenclature in our public schools and Gen [illegible] Eaton, the United States commissioner of education, in a recent address recommends it as one of the most beautiful scientific inventions of the age, pronounces it a shame that it has not yet been practically introduced in this country, and urges renewed efforts on the part of teachers to press it in the schools with a view of making the rising generation [illegible] it, since the present one is too hopelessly [illegible] to do it.

It is beyond doubt that in theory the metric system is a beautiful one. But it has been suggested that before any one assumes it to be a scientific invention he ought to ask himself whether any professedly practical scheme is scientific that utterly fails when an attempt is made to get it adopted by men. No government of the civilized world, al[illegible] has solemnly adopted the metric system. No people except the French, yet use it and even the French use it but very partially and with the use of many unmetric denominational names. This fact is convincing. It shows that however mathematically perfect the metric system is scientifically it is very imperfect, since true science will study not only to make a thing theoretically regular but to make it adaptable to human wants and human nature. That it is not well adapted to these ends a little attention will show. Its nomenclature is cumbrous, difficult and an absurd mistake. One may preach till he is tired about hectolitres and decimetres and kilograms and though he may explain at length how beautifully the litres mean measures and the metres length and the gramms weight and how the Greek words express the integral grades and the Latin words the fractional grades, he will never get the common people of any nation to use terms so confounded. We are not sure in fact that we have got even this limited use of some of the terms in right shape but if blunders have been made they may be excused on the ground that there is no real occasion for anybody to understand the system.

For plain people a gallon, a yard and a pound are terms good enough. They convey as distinct a meaning as any words can. A metre is said to be an exact divisor of the circumference of the earth but why is it a better measure than a yard? There would be small sense in dropping the yard and taking up a little longer measure with a hard name to pronounce. No doubt there is a fine idea at the bottom of the metric system but it is like most of the reforms that sprung out of the innovations of the French revolution. It is a fine theory, but suits nobody for any practical purpose.

THE RUSSIAN PLAGUE

There is greatest terror in Russia and parts of Europe adjacent to that country on account of the rapid spread of the plague the most fatal of all the malignant epidemics. Europe already quarantines against it, and the Russian government is making greatest exertions to check its progress. True plague is a contagious fever characterized by an eruption of carbuncles and buboes. The present epidemic in Russia is probably the same disease which devastated Europe in the fourteenth century, carrying off in many localities nearly the whole population. Often in severe epidemics patients die within twenty four hours after being attacked, though in most cases they survive several days. Few, however, recover, and when recovery takes place convalescence is tedious. The progress and general phenomena of the disease are minutely described in Defoe's remarkable "Journal of the Plague in London in the year 1665" and perhaps the great plague at Athens, as described by Thucydides, was the same or a very similar malady. Medical science as yet is unable to do much to arrest it, and probably like most other deadly epidemics, it runs a prescribed course which cannot be materially shortened. If Russia is now to be devastated by this scourge it will add to the heavy price she has already paid for the conquest of Turkey, in contact with which country the contagion was obtained.

Tony says the clerks of the late state administration claim that they earned all the money they got. They claim no such thing. Most of them were before the committee and none claimed that they earned all the money that was paid them. If they had, how could Col. Cann have paid Gov. Grover $1,600 for a block of land worth but $200, set up edgewise on the "West Portland Homestead" tract? Cann was principal clerk of the land department for eight years. He says he knew the land he bought was not worth it, but he took it and paid the money just to help Grover, who was "hard up." Does any one suppose Cann honestly earned the money he gave to Grover? He earned no more than Tony earned the money he got for "experting" when he caused the state to pay him for abetting a heavy raid on its treasury.

There are certain organs which denounce the report of the committee of investigation for two reasons. First, their managers had a hand one way or another in the frauds which have been exposed. Second the persons accused are of the same political party with themselves and no testimony that could be presented would be allowed to convince them that a fellow partisan had done a wrong. It would be "treason to the party" to entertain any such opinion. Yet not one of these organs can answer when pressed for a defence of such transactions as Grover's school fund operations, or Chadwick and Cann's swamp land enterprises.

On Sunday afternoon Rev S. H. Marsh D D, president of Pacific University, died at his home at Forest Grove. Though not much beyond fifty years of age, he had accomplished a great work, holding on with invincible tenacity to his convictions regarding the principles on which an independent educational institution should be founded, and devoting his whole energies to what he had undertaken. For twenty-five years he has filled an important place in Oregon, and his death will be sincerely mourned. We shall soon present a sketch of his life and his work.

The publication known as *The Resources of Oregon and Washington* now appears under the editorial direction of Mr A. A Bynon. It is enlarged and greatly improved. An agricultural department has been added, which shows acquaintance with the topics treated under this head, and a great variety of information relating to the resources and development of Oregon and Washington, is collated from all sources and presented in an attractive form.

As a compilation of trade statistics and a review of the material progress of Oregon and Washington during the past year, and indeed for a period of ten years past, the current number of the *Commercial Reporter* is scarcely equaled by anything heretofore attempted in that line. Its specialties are worked up with great fullness, and we think with an accuracy corresponding with the care bestowed upon it.

President Hayes has beaten Senator Conkling on the New York appointments. We have not sympathized with the president in this fight because he hasn't been consistent enough to make the principle a general one and apply it in all similar cases. But perhaps he will take courage from success and for the future turn out better than has been expected.

Journals of Rhode Island boast that it costs but $1 83 per capita to defray the expenses of their state government. Oregon once was as fortunate, but that was before the offices were organized.

CERTAIN PARTIES HAVING UNDERTAKEN to obtain signatures to a petition for the release of Brown and Johnson have made use of my name in connection therewith. I therefore take this means to let the public know that I have never consented to have it used in that connection. I now say that I never will consent to sign my name thereto and do not want the public misled by using it in any way. Brown has publicly said that he was compelled to suffer the extreme penalty he would make a dying confession, implicating others. Can it be that this threat has anything to do with causing collections to be made and petitions circulated for signatures?

SAN FRANCISCO

SAN FRANCISCO, January 22 1879

UNDERSTANDING THAT IRRESPONSIBLE parties in Portland are selling a counterfeit or imitation of our Albany Lubricating Compound and Cups we wish to inform the public that we own by virtue of the following Patents—some of which are our own inventions and others we have bought—all the features necessary to a successful employment of a solid Lubricant for lubricating machinery automatically and furthermore that we shall collect from the parties using for all infringements on our Albany Lubricating Compound and Cups, just as we are now doing in the cases of infringements on Seibert's Cylinder Oil Cup.

PATENTS—No 3,053 January 7th 1868. No 77,974 May 19th 1868. No 73,795 June 29th, 1868. No 80,471 July 28th 1868. No 149,997 April 21st 1874. No 80,471 April 21st 1874. No 19[illegible],887 July 10th 1872 and assignment to us by H M Ransom of San Francisco of his new and useful improvement in Lubricating Cups, dated August 2 1878.

We are now sending the above papers to our Agent (MR A F HILDRETH) now at Portland who will take pleasure in showing them to parties who prefer using genuine patents, thereby protecting themselves against a spurious counterfeit or imitation—sure to fail—and avoiding future trouble.

NOTICE

Parties using Cylinder Oil Cups with the column of condensed water feature are hereby notified that by a recent decision of the U S Supreme Court all such Cups are finally declared infringements on the Seibert Cup for which we are agents. It will be seen therefore that payment for these infringements is inevitable and parties will consult their interests by communicating with us. TATUM & BOWEN

CITY.

CLOSED OUT.—Yesterday the police of the city were instructed to arrest the proprietors of the several melodeons or more properly speaking, dives where a sort of variety performance is given, women are employed and liquor is sold. Four of such organizations have been in full blast in this city for several months and it was at length determined to close them out. There is an ordinance prohibiting the employment of women in conjunction with melodeon performances and the selling of liquor and on this authority the order was issued. However the proprietors hearing of the edict deemed it more prudent to close up than to be arrested for violating the ordinance. In most of these places the women and variety performances were dispensed with. The Bella Union a questionable resort was entirely closed up last night. We understand that this order will be rigidly enforced. This is certainly a move in the right direction—one in the interest of good order and decency and one which will meet with the warmest approval of the respectable portion of the community.

About 10 30 o'clock the large dwelling house of Muckle Bros was discovered to be in flames. All efforts to arrest the course of the fire proved unavailing, and in a short time the building was a heap of ruins. The loss is estimated at $2,500. There was no insurance.

AMUSEMENTS.

A CELEBRATED CASE.—As soon as the box office opened yesterday there was a lively demand for seats, and already there is a considerable "take." There is every assurance that the theatre will be patronized to morrow evening by a large and fashionable audience. There will be a dress rehearsal of the play this evening, so that if there should be any defect in this department it will be remedied before the piece is placed before the public. Of Little Maud a San Francisco exchange says: "The part of Renaud's daughter, by Little Maud was done in a manner far in advance of her years, every look every gesture and word being given with an earnestness and a correctness wonderful in one so young. Should she, unlike most infant phenomena, retain her powers, she will be worthy to wear the now too long unused mantle of Charlotte Cushman."

PERSONAL.

Mr John L Sperry, sheriff of Umatilla county, who executed the George Coggan murderers at Pendleton, is in the city.

Mr Burke Corbett a young gentleman who has been in the service of the Steam Navigation Company for several months past will go to the Dalles to day to take charge of the wharf boat at that place. The position is one of responsibility and we congratulate Mr. Corbett upon his promotion.

Mr Frank C Middleton ("Mido"), special correspondent of THE OREGONIAN, who furnished this paper such graphic accounts of the hanging of Quit-a-tumps White Owl and Aps arrived in this city last evening from Eastern Oregon, after about one month's absence. He brought with him photographs of the Indians hanged and the veritable noose that cut short the career of Quit-a-tumps and Aps which can be seen at this office.

CRIMINAL BUSINESS.

The following list of cases tried at the recent term of the circuit court for this county is an unusually long one and illustrates the fact of the great increase of crime in our midst upon which there has been much comment in the public press and among the people. The number of convictions, in proportion to the number of trials is much greater than is usual evidence that the judgment of the prosecuting attorney and grand jury was wisely exercised in finding the indictments. The tone of public sentiment toward criminals has also had something to do in thus securing the vindication of the law but the results are mainly due to the untiring energy and great ability of Hon John F Caples district attorney who procured indictments against none whom he had not reasonable ground for believing he would be able to convict. Forty six cases were tried and out of the number five defendants only were acquitted, bail was forfeited by two of the parties indicted and 39 were convicted, five of the latter of the highest crime known to the law murder in the first degree, one of murder in the second degree and one of manslaughter. THE DOOMED MEN

ARCHIE BROWN, JAMES JOHNSON AND JACKSON GRANT—THEIR CHARACTER, DISPOSITION, MENTAL AND PHYSICAL CONDITIONS GIVEN IN AN EXAMINATION PHRENOLOGICALLY AND THEY [illegible]

Yesterday Dr Paul M Brennan visited the doomed men Johnson Brown and Grant at the county jail and made a characteristic examination of each. To Dr Brennan we are indebted for the result of his examination which he has kindly furnished.

The condemned were quite vivacious and were willing to submit to the examination and indeed greatly enjoyed it. During the time occupied they were full of mirth and commented humorously on the examination of each other. It seemed for the time being that they forgot the awful terror of the doom that awaited them three days hence, though they referred to the matter several times in an indifferent manner. They all live in hope of a commutation of sentence but at the same time admit that the hope is not very strong. It did not seem for the time that they fully realized the condition they were in though Johnson said he had some fears of the *great void*.

[illegible] ARCHIE BROWN

He is a young man 25 years of age the 20th of last March, 5 feet 10¼ inches in height, very stout, healthy and robust and not unprepossessing in appearance on first sight. His chest measures 38 in, head 22¼ over the head longitudinally from crest of the occipital bone to orbit of the eye 14½ in, across the top of the head from ear to ear 12½ in. Low forehead, intellectual faculties not developed by culture though he says that he had fine opportunities for education while young. His love for fast company of both sexes had more attraction for him than books; his perceptive faculties very poorly developed also his ideality and love for the pure and refined impulse in his nature, lacking in decision of character and totally wanting in self esteem, easily led into error by others and especially into wrongdoing, not having sufficient personal pride to keep him from the vulgar and low; reverence developed more than medium which often causes him to think of religion and God. At times he is inclined to be reflective and even serious and reviews his past life with regret. His self esteem not being developed, his sense of honor was not strong enough to guide him from temptation, rather inclined to be frivolous and imaginary with poor love of home, romantic and fond of travel, friendship large, but constancy not a prominent trait in his character; amativeness large, fond of the opposite sex but not always the most virtuous; firmness small, lacking in tenacity of character except under the impulse of avarice and the love of gain; combativeness and destructiveness large, which made him desperate and unyielding when under the influence of excitement and rage; secretiveness fully developed, especially in action, but not always in language. The development of this faculty led him into fields of dishonesty, and caused him to prey on the weakness of others. Acquisitiveness large, which led him to the belief that the world owed him a living which he was bound to have by fair means or foul; he is inclined to be lazy and would not work if he could help it; caution small but not sufficiently developed to guard him in his actions or language; he was too confiding in his companions who would be liable to betray him at any time; benevolence above the average, which made him freehearted, and would spend his money on friends he loved; money only for its use; language rather fully developed. If the young man had associated with the virtuous and upright and had been surrounded by good moral influences in youth and had received a good education, he would have made a smart man of business and a worthy member of society. He was born in Wisconsin, and has been away from the tender and loving care of parents and relatives nearly all his life.

JAMES JOHNSON

He would not give his proper name, as he did not wish to disgrace his people by letting them know of his terrible condition. He was 25 years of age on the 27th of last November, and was born in the state of Maine. His head measures 22¾ inches longitudinally, 13½ across from ear to ear, 11¼; chest 37½, height 5 feet 10½ inches. He is rather prepossessing in appearance—brown hair, hazel eyes, long features, good complexion, regularly formed nose slightly roman shaped at the end and good expression of face; perceptive faculties fully developed, keen observation, excellent memory which enables him to plan quickly and carry out his designs with accuracy; has a quick sense of the ludicrous and is witty and insinuating in his manners; language large and is a pretty good talker but his caution being large is careful of what he says. Like his companion in crime his opportunities for early education were good but neglected by him. He was too mischievous to study, loved fast company and a wild reckless romantic life, secretiveness large and scarcely any reverence for the Supreme Being or those older than himself; disregarded good moral advice; animal faculties all well developed; amativeness large, friendship strong, combativeness and destructiveness highly developed; cool and deliberate under difficulties, he could carry out his designs with premeditation and ease; conscientiousness small—would conduct operations of dishonesty without scarcely anything of wrongdoing; firmness small, but not entirely lacking in decision of character, self esteem small. [I generally find this faculty lacking in nearly all criminals, which accounts for the lack of a high sense of honor and good moral principles.] Ideality large, fond of music and recreation; acquisitiveness large—fond of making money, but no faculty for keeping it; hope very large—will feel confident of success until the very last; not exactly lazy, but constitutionally tired; has a total disregard for industry; possesses strong magnetism and is capable of making friends and gaining the confidence of those with whom he comes in contact; large and active brain, and if his talents had been turned in the right direction he would have made a talented and useful man.

Both of these condemned men realize their trying situation and keenly regret their past lives. Their lives should be a warning example to multitudes of young men who are on the downward road to crime and degradation, enticed by the flash and momentary excitement of wrongdoers.

JACKSON GRANT

He is a Digger Indian from California 22 years of age, born in Humboldt county, Cal; hight, 5 ft 1½ in; chest, 36 in; head 22½ over the head, longitudinally 13½ in, across the head ear to ear 12½ in. It will be seen that Grant is larger across the top of the head than Brown or Johnson which is caused by the exceedingly large bumps of combativeness and destructiveness which makes him tenacious, and dangerous, cool and firm, very secretive and sly, even stoical; small reverence but large caution; eyes black and piercing, smooth skin and rather light complexion for an Indian; looks as though he was slightly tinged with Caucasian blood; ideality large, form and size well developed which gives him an artistic and ingenious turn of mind; has some education and has associated a great deal among the whites; strong nervous system, is tenacious of life, and no doubt if he is executed will die game.

OREGON CONSERVATORY OF MUSIC.

The first public recital by the pupils of this popular school took place on Saturday afternoon at [illegible] o'clock at the hall of the Handel and Haydn society. The hall had been tastefully decorated for the occasion and seated comfortably in the neighborhood of three hundred people. [illegible] Mr Kitts apologized for stating that [illegible] Miss Rosa Meyer, Miss [illegible] [illegible] Mr J A Cruzan [illegible] Mrs Cruzan [illegible] [illegible] was the [illegible] conservatory [illegible] organ [illegible] duet with Miss Ford was [illegible] done. Mrs Cruzan [illegible] We [illegible] opinion that she will always receive a warm welcome by the public. A few years ago when we used to hear Miss Clementina Mayer sing we looked upon her as our best lady singer and we doubt not that if she would only favor us again, she would retain her laurels, but as she does not seem inclined to indulge us in this, we are glad to give it as our opinion that her mouth has descended on her younger sister Miss Rosa Mayer who differs from her in that her voice is a pure contralto, one of those spontaneous voices that immediately appeals to the feelings, as much by its soul stirring quality as by the skill with which it is manipulated. We shall watch with great pleasure the musical future of this young lady.

Mrs Hegele and Mr Vinton opened the recital with a brilliant duet on the piano which was greatly admired and Professor Trauner kindly volunteered to fill up the space made by the omission of the duet in the beginning of the concert. A very noticeable feature of all the numbers if we except the zither solo was the apparent nervousness of the performers, consequent upon a first appearance before an audience. This of course will be less at each future attempt and we congratulate the ladies that they did so well under the circumstances. Professor Cook also offered some well timed remarks on musical study and his allusion to the popular opinion of the laziness of a music teacher's life was quite apropos. Mr Kitts announced that these recitals would occur on the last Saturday of each month at 2 P M and thanked the audience for their presence.

We cannot conclude without offering it as our unqualified opinion that this Oregon conservatory of music is bound to succeed and that its influence will be very soon felt in our society circles where sometimes one is obliged to listen to the most excruciating attempts at vocalization. We would suggest that at the next recital the programme be a little longer and include more instrumental numbers. We understand that Prof Brenner and Prof Trauner have been added to the faculty, the former for piano and violin and the latter for zither teaching.

ARE FAT PEOPLE HEALTHY?

Why are fat people always complaining? asks some one who entertains the popular though erroneous notion that health is synonymous with fat. Fat people complain because they are diseased. Obesity is an abnormal condition of the system in which the saccharine and oleaginous elements of the food are assimilated to the partial exclusion of the muscle forming and brain producing elements. In proof of this it is only necessary to assert the well known fact that excessively fat people are never strong and seldom distinguished for mental power or activity. Besides they are the easy prey of acute and epidemic diseases and they are the frequent victims of gout, heart disease and apoplexy. Allan's Anti Fat is the only known remedy for this disease. It contains no acid, is absolutely harmless and is warranted to remedy the most confirmed case of obesity or corpulency.

Cast your Bread upon the waters and it shall return to you after many days.—Scripture

Leaves from the Diary of this Great Healer

TWO MORE HELPLESS CHRONIC CASES CURED IN ONE FAMILY HUSBAND AND WIFE—TWO MORE FINGER BOARDS ERECTED TO POINT THE SUFFERING THOUSANDS OF THIS COAST TO A GENUINE HEALER WHOSE CURES ARE ALWAYS PERMANENT AND WHO NEVER FAILS TO CURE EVERY CURABLE DISEASE OF WHATEVER NAME OR NATURE.

The following cases were treated over 8 months ago and both were complicated cases of Rheumatism and Paralysis and were beyond the reach of medicine, more especially so as both were old and the vital forces very much depleted. The permanent cure of these two sufferers in *one short week's treatment* is *most respectfully dedicated* to the *thousands of hopeless sufferers* on this coast, hoping that they may go and do likewise. Permanent office southeast corner of Front and Washington streets Portland Oregon.

Sink deep within thy heart,
With thee alone shall I be blest,
Till call'd with life to part.

Forget Me Not.

I crave one little favor,
Oh! be it not forgot,
'Tis this while memory reigneth
Dear friend forget me not.

A love that's firm, a heart that's true,
My dearest one I offer you.
Oh do not thou the offering spurn,
But give affection in return.

I have examined the bills of Meyer and Cohen and Meyer & Son rendered for supplies furnished the penitentiary at various intervals from [illegible] ber 1875 to May of 1878 inclusive According to these bills seventeen dozen brooms were bought during this time for which $11[illegible] was paid 8,400 pounds of rice was bought for which $[illegible] was paid while just $[illegible] was squandered for eggs These bills spoken of as being [illegible] include charges amounting to over $[illegible] for blankets clothing hardware crockery [illegible] stationery rope &c while a further large amount is for coal oil brooms &c.

To B [illegible] H [illegible]

DEAR SIR—At your request I this day called upon Wm F Miller warden of the state prison for the purpose of ascertaining whether your penitentiary account books marked No 59 (ledger) and journal No 60 as shown by receipt to you from B. F Burch superintendent, were and had been in the custody of said warden I was shown the two books above described by Mr Miller and find that they embrace business transactions with ex superintendent Watkinds on account of the penitentiary from Sept 1st, 1874 until Feb 15th 18[illegible]

Respectfully

B F BONHAM

A. M Belt R H Dearborn Ben Belt C H Hall who being first duly sworn say that they are knowing to the corrections made upon vouchers Nos 46[illegible] 501 565 391 issued to Belt & Johns. They were corrected by a demand made by the superintendent of the state penitentiary and voucher 540 issued to Belt & Hall shows the corrections The state lost nothing from the overcharges and erroneous entries.

E B STONE Notary Public

This affidavit refers to the overcharge for whisky, wine, etc

E B Stone swears I am personally acquainted with the facts in the above affidavit Johns acknowledged the error to me and agreed to pay the money back, which was done, to my knowledge

E. B. STONE

Joseph Osborne being first duly sworn testifies as follows I was commissary at the prison The items of brandy cider raisins, etc., were used for the officers table corn starch was used for puddings the raisins and brandy for mince pies for officers none was extravagantly used. Don't know of a single dishonest act of Watkinds in the management of prison affairs don't know of a single mistake he made where any property belonging to the state was injured lost or destroyed by any carelessness.

A. M. Belt, being first duly sworn says I am a resident of Salem Oregon and visiting physician at the Oregon state penitentiary for four years A barrel of whisky was purchased upon my request and requisition that the whisky was necessary in tonics furnished the prisoners that I had prescribed it liberally as a medium in conveying quinine and gum guiacum for billious and rheumatic complaints, especially while nearly all the prisoners were at work upon the ditch or mill race, in water and during the rainy seasons that I advised the purchase of so large a quantity on the ground of economy knowing it was a necessary supply required for the prisoners and a saving could be made instead of purchasing by the gallon as had heretofore been done.

A. M BELT

B B. Holtsclaw being first duly sworn, says I am and have been warden of the Oregon penitentiary for the four years last past that I have had entire charge of the whisky and that no one could have had access to the same without my knowledge and that it has been used only for medical purposes.

B. F HOLTSCLAW

SALEM Jan 22, 1879

I hauled sand to the prison for $2 per load and I consider it worth that much, as a man cannot haul more than four loads a day

JOHN W. MINTO

SALEM, Jan 22 1879

I am engaged in the business of teaming in this city and have generally charged $2 per load for small quantities of sand delivered in the city Where a large amount is required I charge $1 75 per load. It is well worth $2 per load including ferrage and cost of sand, to deliver sand at the prison under the most favorable circumstances, as it is about one mile further to haul than to the city

H. W PALLEIS

SALEM, Jan 22, 1879

I, S S. Harris, now a contractor for the plastering being done at the state house, do hereby certify that I am paying $1 50 per load for sand This is about one mile nearer the place where it is obtained than the penitentiary

S S HARRIS

SALEM, Jan. 22, 1879

I never paid Mr W H. Watkinds anything on any contract in which I had an interest, nor for any employment during the time he was superintendent of the state prison. And I did not positively refuse to go before the investigating committee to testify When I had the sand contract I never made from the island of Minto over four loads a day to the prison, and sometimes only three I had this contract because I was the lowest bidder—$2 for each cubic yard and a half Out of this I had to pay for sand and ferriage

D M. WATKINDS

SALEM Jan. 29 1879

Reference having been made to us by the investigating committee in their report as having received $1 776 52 for sand and wood we desire to say that Mr W H Watkinds was not interested in these contracts with us directly or indirectly and we never paid him one dollar either directly or indirectly to award us these contracts These contracts were awarded us because ours was the lowest bid made for performing the work. We see that it has been stated that six loads of sand could be delivered at the prison in a day This is a mistake, four loads is a good day's work and is about the usual amount hauled each day We regard it impossible to make six loads in a day Messrs Minto and Hawley were associated with us in the sand contract

J L HIXSON

D W HIXSON

SALEM Jan 22 1879

I leased the brick yard at the penitentiary some time during the winter of 1874-5 I was to pay 50 cents per day for convict labor and $2 per load for all the sand I should require for use in making brick I have had continuous control of the brick yard since the date of my first lease and have used and paid for the greater portion of the sand that was on the ground at time of Mr Watkinds report to legislature of 1874. I paid at the rate of $2 per load, measuring one and a half cubic yards. Several loads of sand have been sold to citizens living in the neighborhood of the prison, and a considerable portion has been used at the prison in the foundations of buildings constructed at the prison grounds. It has been stated that I have had the use of convict labor which I never paid for This statement is false, as I never had the use of any labor which I did not pay for in full Further it has also been said that Mr Watkinds and myself were interested together in the manufacture of brick This also is false, and I desire to say further that Mr Watkinds never received one cent from me on account of any contract, or to influence him in any way in his official conduct. I never had any other partner in the manufacture of brick than Mr H M Staunner who withdrew from the business some time during the spring of 1876

GEORGE COLLINS.

Samuel Bass being duly sworn by J N Dolph testified as follows I was awarded the contract for furnishing wood to the prison at $3 75 per cord I lost money on the contract. Watkinds was not interested with me directly or indirectly in the delivery of this wood or any other articles at the prison, other persons bid on the same contracts among them was J H Moores, his bid was the same as mine some bids were as high as $3 60 and $3 65 per cord. The advertisements for bids were in the *Mercury* and *Statesman* The warden always gave me a receipt for the amount of wood delivered. Watkinds always guarded the interest of the state in dealing with me more than he did in his private business I have done business with him for a long time, have been about the prison half the time since he took charge don't know of a single dishonest act in the management of that institution there was a written contract between the superintendent and myself

S BASS

Mr Dearborn being sworn testifies as follows before the Dolph committee

Q —Is the goods you have sold to the penitentiary during the last two years, are they charged up at your regular prices? A.—They are not in excess of our price upon any one article, and many articles less than our regular price, as Mr Watkinds is noted for being a very close buyer The articles were all needed at the prison so far as I know

R H. DEARBORN.

I Robert Thompson say that I was warden and deputy warden of the Oregon state penitentiary for eight years. While deputy warden it was my duty to receipt for all wood delivered at the prison, which I did The parties delivering the wood settled with the clerk R H. Dearborn by my receipts And I am known to the fact that Bass delivered the amount of wood he received pay for, and $3 25 was a fair price for it as it had to be hauled four miles. I had charge of the brickyard during the whole of Watkinds administration and only four loads of sand could be hauled from the island to the brickyard in a day and sometimes the teams only made three loads a day from the island I am also known to the fact that Watkinds kept at the prison at his private office liquors of his own that he sometimes gave it to the visitors and friends and further that he repeatedly in my presence gave orders to the wardens not to allow any whisky belonging to the state to be used for anything but medicinal purposes.

The statement has been made that [illegible] Collins had convict labor for which he did not pay anything While I was warden of the prison he had not any labor but what he paid for

ROBERT THOMPSON

Robert Thompson warden of the prison for eight years, sworn by J N Dolph testified as follows

Question—Do you know of a single dishonest act of Watkinds in the management of affairs at the prison?

Answer—I do not.

Q.—Do you know of a single mistake that has been made while he was superintendent where property belonging to the state was injured lost or destroyed by his carelessness?

A.—I do not

Q —Did he ever receive a dollar of the amount of money that was paid for overwork to your knowledge?

A.—Not one dollar

SALEM Jan 22 1879

Mr W H Watkinds DEAR SIR —I observe in the report of the investigating committee some insinuations going to show that you were influenced by some interest of a peculiar character in your purchases of goods from us for the Oregon state prison, and as I know these insinuations are unjust and unfounded if not malicious, I take the liberty to contradict their statements You never received from the firm of M Meyer & Son or either of them acting for the firm the amount of one cent or any other amount to influence you in your purchases of this firm nor did you at any time either directly or indirectly share in any of the profits nor was there any addition made on or [illegible] with any purchase ever made [illegible] Nearly all the goods sold [illegible] you were sold [illegible] advertised for supplies for the prison and the [illegible] at the time when [illegible] contracts were awarded us When the committee was in session [illegible] at any time to go before that body and testify [illegible] never called

I desire to state as a matter of justice to Mr Watkinds late superintendent of the Oregon penitentiary that during the time I sold him drugs and medicines necessary for the prison that I sold the same at the usual price paid by other persons who purchased at wholesale and at the same terms of payment Any insinuations or statements to the effect that he was paid anything by me directly or indirectly for making these purchases is a malicious falsehood

A M BELT

PORTLAND Dec 18 18[illegible]

John Thompson Esq [illegible] DEAR SIR—I have been informed by a number of persons from Salem that you have been making some very reckless statements about my administration of the Oregon penitentiary saying there was sufficient evidence if it could be brought before the investigating committee now in session that would warrant them in reporting me to the grand jury and that you have also stated that I ought to be sent to the penitentiary I have no knowledge nor can I imagine what your charges are based upon I sincerely hope that you will point out to the committee what information you have of any dishonest act of mine while I had charge of the penitentiary I shall always hold myself responsible for every dollar of the people's money that I spent while acting as their agent and I concede to you the right to criticise my acts as long as you keep within the bounds of truth From what I know of my management of the penitentiary I am justified in denouncing you as a liar and a coward I have written said committee a letter showing why you take such interest (without authority of law) in this investigation. Your hatred to Gov Grover and myself and our administration of public affairs is entirely of a personal and revengeful spirit on your part Had you got the appointment of private secretary in 1870 (a place you sought) or if you had been appointed judge to fill the vacancy caused by the death of Judge Thayer you would to-day been as warm a supporter of Gov Grover as any man in this state. I shall address an open communication to you in a few days through the public press (unless I change my mind) and let the public know something about you imaginary wrongs Yours etc

W H WATKINDS

PORTLAND Or, Nov 9 1878

William Wile Esq Warden O S Penitentiary Salem Oregon—DEAR SIR. Being informed by a person who heard you say that you had found a small steal of $1 000 in looking over the penitentiary books If it was during my term of office as superintendent of the penitentiary you will do me a great favor by pointing out the facts to the investigating committee now in session in your city. By doing so you will satisfy an overtaxed people that you were looking after their interests and that you really intended retrenchment and reform in your administration of prison affairs It is doubted by some who know something of some beef contracts while your brother John F. Miller was Indian agent, whether you really mean reform at this time and while you are looking up these little matters I would suggest that you look at the capitol commissioners books (that is if you know anything about books) while your brother was capitol commissioner and find how many wheelbarrows he brought from Oregon City and turned over to the state what condition they were in what price was paid for them By referring to my report it will show how much it cost to repair them to make them ready for use Let me suggest the name of T B Jackson of Salem who would be a good witness on this subject. Hoping to hear from you soon in the way of a grand exposé of corruption in penitentiary capitol building commissioners, etc. I am, sir, yours in the language of Grant

Let no guilty man escape

W. H. WATKINDS

A copy of this letter was sent to the committee. D P Thompson failed to make any report on this wheelbarrow transaction yet it was the greatest fraud ever perpetrated on the state to my knowledge The voucher was on file showing the amount paid for them Thompson knew all about the transaction The witness referred to in the letter was in Salem all the time the committee was in session Thompson and Galloway had a friend in court

PORTLAND Or 18th Dec 1878

Hon W [illegible] Galloway and members of investigating committee, Salem Oregon—GENTLEMEN Have been informed that Walter Jackson has testified before the committee that I was interested with him in the shoe and boot business at the prison Inclosed you will find a certificate signed by him stating that I was not a partner of Mr Jackson at any time There was an understanding between us that I was to go in partners with him when the legislature met passed upon my accounts, and my resignation accepted If he run short of money before that time I was to lend it to him He tried to get me to sign a statement to Dolliver Bros of San Francisco that I would be a partner at the time referred to, which I refused to do There is no book contract letter or paper of any kind signed by me that will in any way show that I ever was a partner with him directly or indirectly nor over was there such a paper All the talk I ever had with him was in the presence of Governor Grover After I saw Mr Jackson's way of doing business, I made up my mind that I did not want to become a partner of his and so informed him He claimed it would be a loss to him if I did not I contended that I was under no obligations to him he contending that I should give him something to be released from the promise After several days quarreling about it we agreed to leave it to Gov Grover He decided that I had better pay Jackson $500 which amount I paid him rather than have any lawsuit with him after the legislature had met stated distinctly at the time I paid it in the presence of witnesses, that it was for nothing for any understanding before that time between us, but to be released from the future I paid one or two bills for him while he was in San Francisco, at his request He stands charged on my book with the amount and was credited with the money when he paid it back to me This whole thing was gotten up by John F Miller and Clay Myers, who was warden at the penitentiary and was discharged for his dishonest conduct at the prison (see house journal 1876) Both these men are relatives of Mr Jackson and were trying to get me removed from the prison Mr Miller was fighting for the reason that I couldn't keep all the young men in the country (whose sister * * * *) guards at the penitentiary so they would be no trouble to him For further particulars on this subject see my report together with the penitentiary commissioners report and see how many Armstrongs were to work or on the pay roll. You will see the statement bears no date it was attached to other papers such as affidavits on the same subject together with Gov Grover's statement corroborating what I have said in regard to the matter in this letter The committee of 1878 investigated this matter thoroughly and did so at my request The papers were left attached to Walter Jackson & Co's leases and papers marked from letter A to N You will see this one is marked H I took it from the file at the time for fear it would be stolen

Respectfully yours

W H WATKINDS

PORTLAND Dec 19 1878

Chairman Investigating Committee Salem Oregon—I have been informed by a member of your committee that Messrs R H Dearborn and D M Watkinds have refused to come before the committee and testify I hope you will not think this is done at my suggestion Allow me to say that I am not on intimate terms with either of the gentlemen named You will see that my life in politics has not been a pleasant one. I have heard nothing but investigations situations and how much I could afford to give some worthless newspaper editor or some necessary expense for carrying on a political campaign from the time I engaged in this cesspool to the present. I suppose, in about ten years from now when my enemies who tried to use me (for selfish motives) get through investigating me I can exclaim, in the language of the hoodlum give me a rest. My nephew had a sand contract for two years at the prison I advertised to receive bids Bids were received from different parties he being the lowest bidder I gave him the contract paid him accordingly and no more All supplies furnished the prison while I was there check books were kept by the commissary Mr Osborne All receipts for wood and sand were given by Mr Thompson deputy warden All of the above supplies were advertised annually and let to the lowest responsible bidder All bills together with the check books receipts papers etc were turned over to my successor B F Burch and I hold his receipt for the same and if they have not been stolen or destroyed as they did my resignation and report they are still on file The receipt [illegible] as [illegible] package Not to be opened [illegible] except a committee [illegible] said to contain books papers [illegible] vouchers letters [illegible] package marked [illegible] And I [illegible] examination you will be able to [illegible] them [illegible] shall never [illegible] and I can retire from [illegible] efforts have never been [illegible] I sought to serve [illegible] made at the prison [illegible] was done through [illegible] on my part I found the institution [illegible] single building [illegible] were there were to [illegible] The land was a forest of brush and timber the men were carrying double irons [illegible] effects When I turned [illegible] left it second to no [illegible] safety and [illegible] in good cultivation I turned over the prisoners in good health and [illegible] discipline as an prison in the United States with not a single iron on their legs and I expect to live to see the day when my labors there will be appreciated I can then exclaim Truth crushed to earth rises again.

FINANCIAL AND COMMERCIAL

Financial

[illegible]

[illegible] tion of moderate activity which has prevailed since the opening of [illegible] [illegible] but the outlook is [illegible] favorable to a good volume of [illegible] business during the spring months

Advices from abroad in regard to the bread [illegible] market indicate a depressed condition of the trade [illegible] sian ports on account of the plague may have the effect to create a greater demand for American grain and consequently an advance in English quotations but no indication of such a result has yet reached the local market The tendency of the news which we publish elsewhere on this subject will however be to strengthen holders in their alleged belief that higher prices must prevail before the next harvest

We were shown to-day samples of the wheat cargo of the British ship Hannah Landles. The cargo is all Walla Walla wheat and is of superior quality and is remarkably free from all deleterious substances Great care has evidently been taken in cleaning it The grain which is smaller than average valley wheat is very bright and quite plump and full It is claimed that Walla Walla wheat will make [illegible] flour to the bushel than the product of the valley and that it is stronger but hardly so bright [illegible] The samples of the Landles cargo shown us to-day will, however make No 1 flour without doubt.

The *Commercial Reporter* just issued gives a vast amount of statistical matter in regard to the commerce of this state during the year 1878 from which we have collated some things which will be of interest to our readers but which is crowded out at present

DR. PAUL M. BRENAN,

His Wonderful Success

IN THE TREATMENT OF ALL

Chronic and Difficult Diseases.

He has astonished the People of this Coast by his skillful Operations.

HE HAS TAUGHT IN HIS public and private lectures the true principles of health and life to both male and female He has also warned them against habits that would be likely to produce disease in plain and comprehensive language. But where he has found them crushed and broken down by disease mentally and physically he has restored them to health and happiness for it is well understood that without health there can be no happiness

DR BRENAN has made a specialty in the treatment of the following diseases Catarrh Bronchitis and all diseases of the throat and chest by an entirely new system only known to himself Diseases of the Kidneys and Urinary Organ including Spermatorrhea Seminal Weakness or premature loss of Manhood In the treatment of these diseases he has made a world wide reputation by his astonishing success not only on this Coast but throughout the whole United States. Diseases of the stomach bowels liver and kidneys as well as all diseases of the blood and skin he has become master of and never fails to give relief at once and permanently cures the case if he is applied to in time

THE DOCTOR HAS GIVEN SPECIAL LECTURES to ladies only for years and is perfectly familiar with all female complaints and understands their delicate and refined organization as well as the proper remedies which should be used to allay their suffering and restore them to perfect health

THE DOCTOR HAS THIS ADVANTAGE over most physicians—he can tell the patients disease the moment he comes in contact with them without any aid from the individual This ac[illegible] a part [illegible] professional success All surgical operations can be performed by his skillful hand and the patient need not fear the result.

DR BRENAN will send to those living at a distance and who can not well visit his office a list of Printed Questions and by the answers [illegible] he can tell the disease as well as the proper treatment almost as well as seeing the patient personally and will forward the proper medicine or instruments to any part of the country with full instructions and advice Each letter must [illegible] or list of questions must contain [illegible] stamps

Everything strictly confidential and honorable

THE DOCTOR has studied in the best Medical schools in Europe and three years in the Jefferson Medical College at Philadelphia as the record [illegible] of the Medical men of the Medical Faculty in this State can testify

CAUTION.

Persons coming to Portland requiring medical treatment of the proper kind who desire to consult with me, will please beware of persons who may try to coax them away to other so called Doctors through pretended friendship for the patients Look out for them they are knaves prompted by selfish motives and what they can make. Be sure and ask for DR PAUL M BRENAN the *Medical Lecturer* and read his sign on his door
